Listing of Claims:

1-17. (previously cancelled)

18. (currently amended) A vehicle rear view mirror comprising a housing with a rim, a mirror lens and a location frame having a plurality of corners, said frame being adapted to carry said mirror lens and to locate it wholly within the rim of the housing without extending over the edges thereof, said frame and/or housing being made from a resilient material, the frame being a resilient snap-fit within the housing and said housing and said frame being releasably detachable.

19. (previously added) A mirror as claimed in claim 18 in which said housing is provided with frame retainment means and said frame is provided with housing engagement means.

20. (currently amended) A mirror as claimed in claim 19 which said frame retainment means comprises one or more releasable catches and said housing engagement means comprises one or more abutments which co-operate with said catches.

21. (previously added) A mirror as claimed in claim 18 in which said frame is provided with lens engagement means.

22. (previously added) A mirror as claimed claim 21 which said lens engagement means comprises one or more abutments adapted to engage said lens.

23. (previously added) A mirror as claimed in claim 21 in which said lens is a resilient snap fit in said frame.

24. (previously added) A mirror as claimed in claim 18 in which said frame and/or said housing are made from a resilient synthetic plastics material.

25. (previously added) A mirror as claimed in claim 18 in which said housing comprises a casing adapted to cover the rear face of said lens.

26. (previously added) A mirror as claimed in claim 18 in which said lens is concave or convex or flat.

27. (currently amended) A mirror as claimed in claim 27 26 in which said lens is of the polycarbonate unbreakable type, or any other substrate on which a reflective surface may be deposited.

28. (currently amended) A mirror as claimed in claim 27 26 in which said lens is glass.

29. (currently amended) A mirror as claimed in claim 27 26 in which said frame is provided with slots at each corner to provide further resilience to said frame.
